

Neuro 2009 Informatics

2nd INCF Congress of Neuroinformatics

Pilsen, Czech Republic - September 6 - 8, 2009

Workshop topics:

- **Advances in the automatic analysis of multi-dimensional data**
Chairs: Jaap Van Pelt, Ulla Ruotsalainen
- **Ontologies for neuroscience: applications and advances**
Chair: Maryann Martone
- **How should a neuron be modeled: biophysical detail vs. abstraction**
Chairs: Gaute Einevoll, Andreas Herz
- **High performance computing and grid infrastructure for neuroinformatics applications**
Chairs: Luciano Milanese, Shiro Usui
- **The neuroinformatics of neural connectivity**
Chairs: David Willshaw, Kevan Martin

Keynote speakers:

Kenji Doya	Andrew Schwartz
Alon Halevy	Shankar Subramaniam
Astrid Prinz	Arthur Toga
