

Neuro Informatics 2011

Boston, USA, September 4-6

Technical
co-sponsor

Workshops

Network principles derived from analysis and databasing of cortical connectivity

*Jan Bjaalie, Claus Hilgetag,
Henry Kennedy, Randy McIntosh*

Advances in Computational Psychiatry

*David Kennedy, Randy Buckner,
Michael J Frank, Quentin Huys*

Connectome integration across modalities

*David Van Essen, Marcello Massimini,
Steve Smith, Van Wedeen*

Functional reconstruction of neural networks

*Upinder Bhalla, Aniruddha Das,
Jonathan Pillow, Dietmar Plenz*

Keynote speakers

Kim "Avrama" Blackwell

George Mason University

Ed Callaway

Salk Institute

Shin Ishii

Kyoto University

Allan Jones

Allen Institute for Brain Science

Terry Sejnowski

Salk Institute & UCSD

Satellite workshop at EMBC'11, September 3

Toward a Global Neuroinformatics Infrastructure

Sean Hill, INCF, Sweden
Mitsuo Kawato, ATR, Japan
David Van Essen, WUSTL, USA
Jan Bjaalie, U. of Oslo, Norway

A collaboration between INCF
and the IEEE Engineering in
Medicine and Biology Society
