education

The human brain is such a complex system that it can only be understood by combining knowledge and practices from multiple scientific fields. The 5<sup>th</sup> HBP Student Conference provides an open forum for the exchange of new ideas among early career researchers working across various sciences relevant to the Human Brain Project (HBP). Attendees will be exposed to the data-driven brain research approach of the HBP and have the opportunity to use the EBRAINS platform. The conference offers a space for extensive scientific dialogue, both intra- and interdisciplinary, among peers and faculty through a variety of discussion sessions, lectures and social events. It will take place virtually, organised and supported by the HBP Education Programme.

**The conference will take place virtually over four days, with a versatile online schedule from 1 to 4 February 2021.**

## CALL FOR SUBMISSIONS

Find further information on the [abstract submission page](#).

We invite original high-quality submissions describing innovative research in all disciplines addressed in the HBP. These contributions can emphasise theoretical or empirical works relating to a wide spectrum of fields including but not limited to: neuroscience, computer science, robotics, medicine, psychology, cognitive science or philosophy. We particularly encourage submissions with a potential to inspire collaboration in the research community by introducing new and relevant problems, concepts, and ideas, even if the work is at an early stage of development.

**Abstract submission deadline: 6 November 2020**

## REGISTRATION

Participation in the 5<sup>th</sup> HBP Student Conference is open to the entire student community and early career researchers, regardless of whether they are affiliated with the HBP or not. Participants are also welcomed without contributing to the scientific programme. We encourage young scientists to register and aim at an equal gender representation.

To register for the conference, an EBRAINS account is needed. Please [create your account](#) (free of charge) and [register](#) for the 5<sup>th</sup> HBP Student Conference (also free of charge). Please check the [FAQ on the event website](#) for further instructions.

**Registration deadline: 14 January 2021**

**Please note that registration for the conference is mandatory.**

## Conference Programme Committee:

### Chairs:

Alice Geminiani | University of Pavia  
Ingrid Reiten | University of Oslo

### Committee:

Petruț Bogdan | The University of Manchester  
Sandra Díaz | Forschungszentrum Jülich  
Jens Egholm Pedersen | Royal Institute of Technology  
Carmen Lupascu | Italian National Research Council  
Alper Yegenoglu | Forschungszentrum Jülich

### Organisers:

HBP Education Programme Office |  
Medical University Innsbruck

### Contact:
